

# HOB0

## Home Bound / Home Based Services Application

A web based application and workflow designed to facilitate the efficient administration of Home Bound and Home Based services to student.

HOB0 is the tracking tool used to input requests for services, track time entered by instructors for services provided, produce reports about services, and provide the connection to payroll to pay instructors for services rendered.

A full blown workflow application, custom designed to fit Horry County Schools' needs, HOB0 is a one of a kind, sophisticated, Home Boud/Based tracking tool.
