

Milestone (View past video)

Open the Milestone XProtect Smart Client (Should be an icon on your desktop)

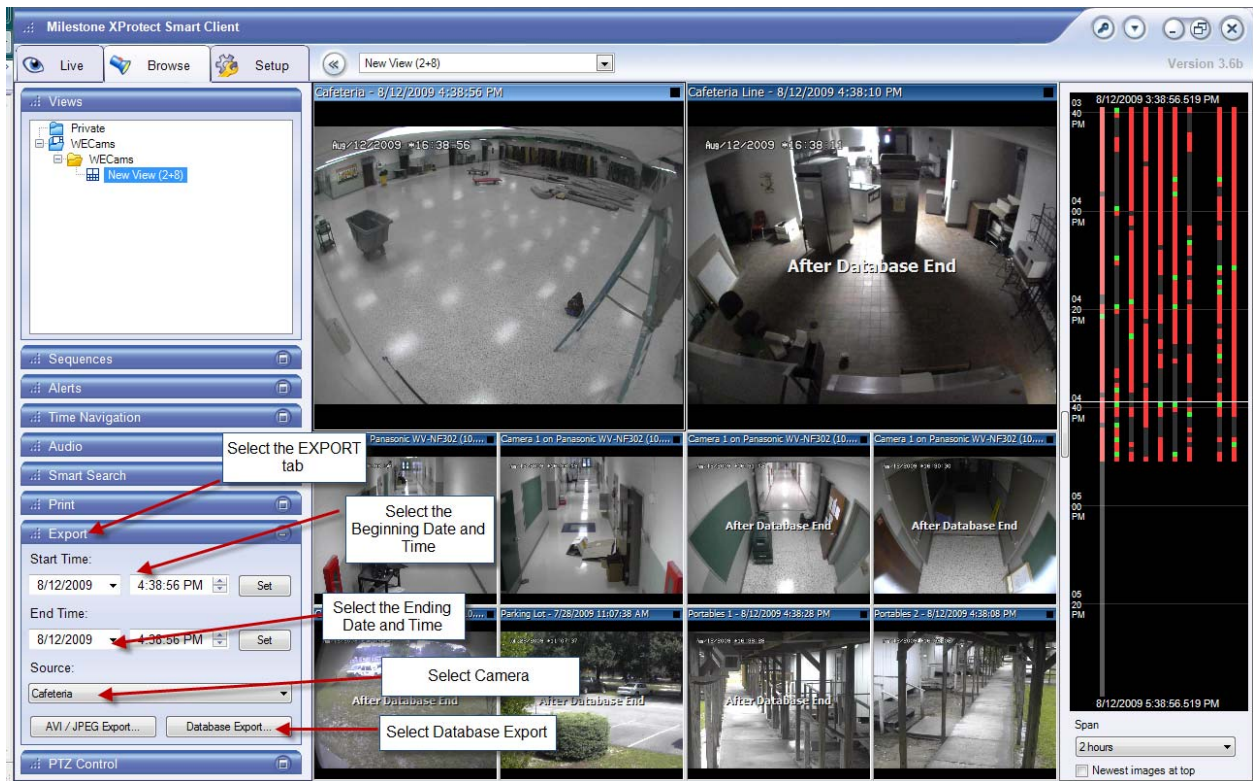

Select the Browse Tab

Select Date, Time and Click GO TO.

Press Play.

Double click on any image to bring to Full Screen. Double click to return to all cams.

Milestone (Save Video)

Select EXPORT tab.

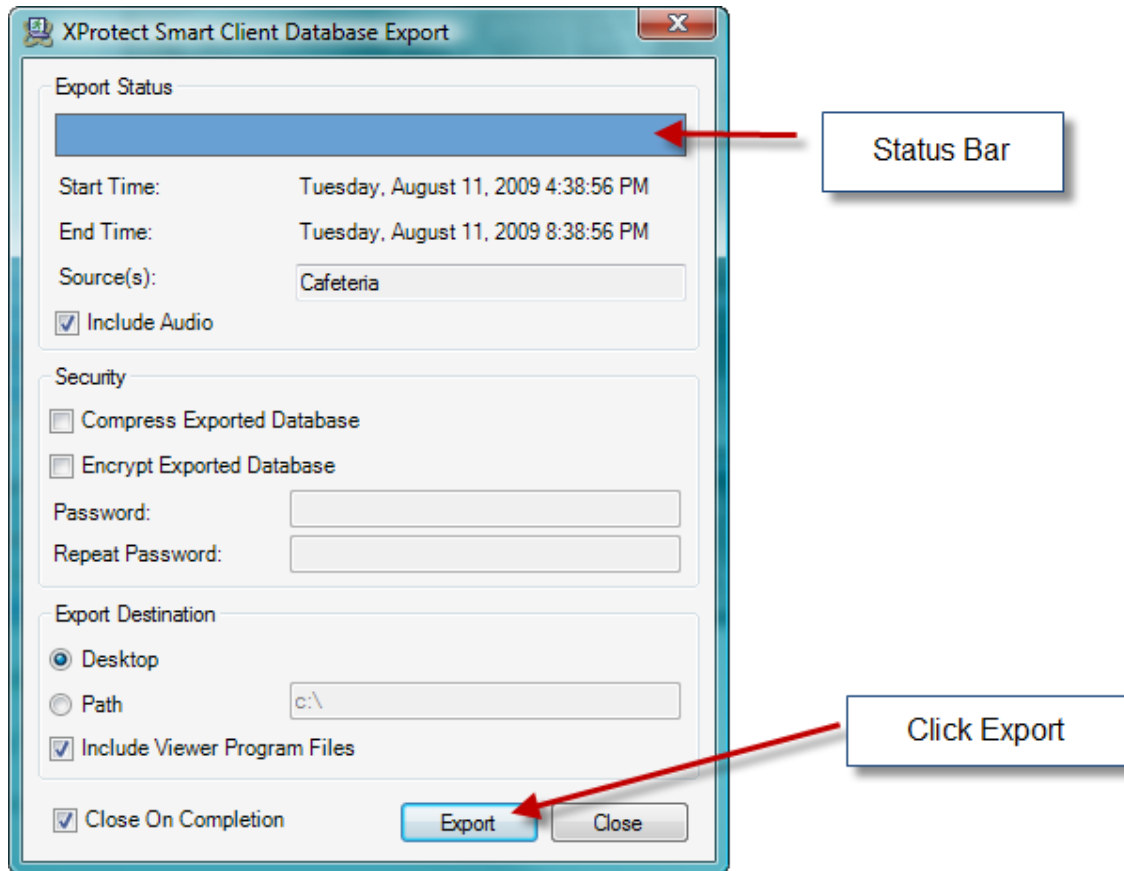

Select Beginning Time and Date

Select Ending Time and Date

Select Camera

Click on Database Export....

The below window should appear.....

Click EXPORT

Video will be exported into a folder labeled "Exported Images" onto your Desktop.

Rename the Folder to something meaningful to you about the video.

In the folder there will be a Viewer.exe file. Double click Viewer.exe to view the downloaded video.
